## MY GARDEN PLANS FOR 2010 BY ELSA WILLSRUD

Last summer I named a few of my plants after characters in Pippi Longstocking.

Last year I accidentally let my peas grow without trellises and the rest of my garden grew just as wild. You could hardly walk in my garden. It was crazy, Mama called it my "jungle garden". It really was like a jungle. This year I am going to plan my garden differently. I am going to try trellising my plants and try to keep my garden under control. I am going to name the plants after characters in my favorite TV show,

"I LOVE LUCY"
